

I and USA

All right - topic of letter - American products which I use

I must do my best cause I don't wanna lose.

I come back home, take off my shoes

“Converse” - the label on heel of these boots

And I'm afraid in any moment they can put down roots -

I like what OLD USA produce.

Nowadays we can easy shop in the USA Shop.

Our money gives little young courier from Ohayo some job.

These are things, that you don't expect to see.

If I want, I can be very good poet. Let it be.

I grew up at hip-hop from Detroit and New York city,

But, in my headphones plays song named “Toxicity”.

It is not difficult - just another one quest,

But today I like Indiana Jones with golden chest

In Chesterfield, St. Louis, USA -

Use all my vocabulary and everything's okay

It's not difficult to say - I like rap, R'n'B and hip-hop.

USA, thank you a lot, for my new music top,

That I don't listen to music which called “Pop”.
